NAVY RESOURCES CORP.

Notes to Condensed Interim Financial Statements
For the six months ended June 30, 2020
(Expressed in Canadian dollars - unaudited)

1. Nature and continuance of operations

Navy Resources Corp. (the "Company") was incorporated in the province of British Columbia on May 5, 2011. The Company is engaged in the exploration and evaluation of resource properties. The Company's registered office is 1740-1177 West Hastings Street, Vancouver, British Columbia, V6E 2K3. The Company's shares are traded on the TSX Venture Exchange (the "Exchange") under the symbol "NVY".

These financial statements have been prepared on a going concern basis, which assumes that the Company will continue in operation for the foreseeable future and will be able to realize its assets and settle its liabilities in the normal course of business. At June 30, 2020, the Company had cash of \$488,894 (December 31, 2019 - \$697,769) and its current assets exceed its current liabilities by \$239,776 (December 31, 2019 - \$676,048). The Company currently has no active business and is not generating any revenues. It has incurred losses and negative cash flows from operations since inception and had an accumulated deficit of \$1,546,242 as at June 30, 2020 (December 31, 2019 - \$1,442,832). Whether and when the Company can obtain profitability and positive cash flows from operations is uncertain. These uncertainties cast significant doubt on the ability of the Company to continue as a going concern.

The Company's ability to continue its operations is dependent on its success in raising equity through share issuances, suitable debt financing and/or other financing arrangements. While the Company has been successful in raising equity in the past, there can be no guarantee that it will be able to raise sufficient funds to fund its activities and general and administrative costs in the next twelve months and in the future. These financial statements do not give effect to the required adjustments to the carrying amounts and classification of assets and liabilities should the Company be unable to continue as a going concern. Such adjustments could be material.

On March 11 2020, the World Health Organization characterized the outbreak of a strain of the novel coronavirus ("COVID-19") as a pandemic which has resulted in a series of public health and emergency measures that have been put in place to combat the spread of the virus. The duration and impact of COVID-19 is unknown at this time and it is not possible to reliably estimate the impact that the length and severity of these developments will have on the financial results and condition of the Company in future periods.

2. Significant accounting policies

These financial statements have been prepared in accordance with International Accounting Standard ("IAS") 34, *Interim Financial Reporting*, as issued by the International Accounting Standards Board ("IASB"). Accordingly, certain information and footnote disclosure normally included in annual financial statements prepared in accordance with International Financial Reporting Standards ("IFRS") have been omitted or condensed, and therefore these financial statements should be read in conjunction with the Company's December 31, 2019 audited annual consolidated financial statements and the notes to such financial statements.

These financial statements are based on the IFRS issued and effective as of June 1, 2020, the date these financial statements were authorized for issuance by the Company's Board of Directors, and follow the same accounting policies and methods of computation as the most recent annual financial statements, except for the impact of the changes in accounting policies disclosed below:

2. Significant accounting policies

New accounting standards and interpretation

The Company has adopted the following new accounting standard and interpretation:

IFRS 16, Leases (effective January 1, 2019) introduced new requirements for the classification and measurement of leases. Under IFRS 16, a lessee no longer classifies leases as operating or financing and records all leases in the statement of financial position, unless the lease term is 12 months or less or the underlying asset has a low value. The Company has applied a modified retrospective transition approach. The Company does not have any leases, and as a result, this standard had no impact on the Company's financial statements on adoption.

IFRIC 23, Uncertainty over Income Tax Treatments (effective January 1, 2019) provides guidance when there is uncertainty over income tax treatments including, but not limited to, whether uncertain tax treatments should be considered separately; assumptions made about the examination of tax treatments by tax authorities; the determination of taxable profit, tax bases, unused tax losses, unused tax credits, and tax rates; and, the impact of changes in facts and circumstances. This interpretation did not have an impact on the Company's financial statements.

Accounting standards issued but not yet adopted

The Company has not applied the following amendment that has been issued but is not yet effective:

Amendments to IFRS 3, Business Combinations (effective January 1, 2020) assist in determining whether a transaction should be accounted for as a business combination or an asset acquisition. It amends the definition of a business to include an input and a substantive process that together significantly contribute to the ability to create goods and services provided to customers, generating investment and other income, and it excludes returns in the form of lower costs and other economic benefits. The Company has not elected to apply this amendment early.

3. Exploration and evaluation asset

On April 20, 2020 the Company entered into an option agreement to acquire a 100% interest in the Hot Springs Property in the Humboldt County of Nevada, USA. In order to acquire the option, the Company is required to pay payments of USD \$136,140, issue 1,650,000 common shares and make a final balloon payment of \$1,500,000 on the fifth anniversary. The balloon payment may be made in cash or stock, at the Company discretion. The optionor maintain a 2% net smelter royalty which may be purchased by the Company in 0.1% increments for USD\$100,000 per each 0.1% increment.

In addition, the Company staked an additional 111 claims totalling 927 hectares adjacent to the property subject to the option terms.

A summary of payments is outlined below:

Latest Payment Date	Cash	Shares	Balloon payment
Effective Date	\$36,140	100,000	-
First Anniversary	\$25,000	150,000	-
Second Anniversary	\$25,000	300,000	-

4. Share capital (continued)

Options:

On April 12, 2012, the directors of the Company adopted a Stock Option Plan (the "Plan"). The plan provides that, subject to the requirements of the Exchange, the aggregate number of securities reserved for issuance, set aside and made available for issuance under the 2013 Plan may not exceed 10% of the issued and outstanding shares of the Company at the time of granting of options. The number of common shares which may be reserved in any 12 month period for issuance to any one individual upon exercise of all stock options held by that individual may not exceed 5% of the issued and outstanding common shares of the Company at the time of grant. The number of common shares which may be reserved in any 12 months period for issuance to any one consultant may not exceed 2% of the issued and outstanding common shares and the maximum number of common shares which may be reserved in any 12 month period for the issuance to all persons engaged in investor relation activities may not exceed 2% of the issued and outstanding common shares of the Company. The 2013 Plan provides that options granted to any person engaged in investor relations activities will vest in stages over 12 months with no more than ¼ of the stock options vesting in any three month period.

As at June 30, 2020 and December 31, 2019, there were no stock options outstanding.

Reserves:

The share-based payment reserve records items recognized as stock-based compensation expense and other share-based payments until such time that the stock options or warrants are exercised, at which time the corresponding amount will be transferred to share capital.
